LABORAL EXPERIENCE

No country

Full-stack developer

I worked with a team of developers to make a pet adoption web app. I worked on both parts of the app, I developed the pets crud endpoints and the add pets to favorites endpoints. And on the front-end part I worked on the pet pagination and on the shelter dashboard in which shelter owners can see all the adoption requests made by the users.

E-commerce

<https://api-e-commerce.netlify.app>

E-commerce in which users can create and log in to an account, they can buy different products and view their purchase history. Technologies: react, react-router, react-redux, tailwind CSS, nodejs Api with Express.js, sequelize and firebase.

Pokedex

<https://p0k3w1k1.netlify.app>

A page using the pokemon public api that shows information of all the different pokemons and they can be filtered by names or by their type. Technologies: React, React-router, CSS, React-redux.

Music-api

<https://github.com/jaredmejia24/music-api>

API in which users can be created and logged using cookies technology. Artist, albums and songs CRUDS, users can mark their favorite songs, and cloud image storing. Typescript, Express.js, prisma ORM, firebase, postgresql.
