*Full-stack developer with over 2 years of experience delivering impactful web applications. Led a component library project, contributed to a health app, and currently enhancing the frontend of an insurance web app at Ficohsa using modern development practices.*

## LABORAL EXPERIENCE

**Ficohsa**                                                              **Tegucigalpa, Honduras**
Frontend developer                                                          *July 2024–Present*

- Developed a web application that allows users to purchase insurance and make payments using their bank accounts.
- Implemented micro frontend architecture using React, Module Federation, and Next.js to enable modular and scalable development.
- Maintained and enhanced the internal component library extending Material UI to streamline development across all web applications within the bank.

**Ingenieria Digital**                                                    **Tegucigalpa, Honduras**
Full-stack developer                                                        *April 2023–Present*

- Participated in the integration of systems with insurers, allowing patients who have health insurance to automatically obtain the corresponding benefits online, simplifying the administrative process.
- Collaborated in the implementation of a complete system of digital medical records, making it easier for doctors to create and efficiently manage patient medical records.
- Contributed to the development of a highly secure cloud storage system with AWS S3, which allows doctors to upload and access important documents quickly and securely.
- Developed an online appointment system that allows patients to conveniently schedule and pay for their appointments, optimizing time and resource management.
- Participated in the planning, development and integration of a component library using Shadcn for speeding up the launch of new software products.

## Education

**UNAH – university**                                                             *2021 - 2022*
Attended 2 years for systems engineering

**Academlo**                                                                          *2022*
